

Unique Portable Design With Huge 200kg Load Carrying Capacity

Unsurpassed Performance and Reliability

We set our design engineers a goal that was previously thought to be unachievable. The amazing test results exceeded all our expectations and is a testament to the dedicated team of professionals at Eurogreen who accomplished this stunning outcome.

The level of comfort is equal to any road class scooter regardless of the passenger weight and the maneuverability in confined spaces is astounding. The Sumo has raised the benchmark for high capacity portable scooter design and now provides a safe affordable transport means for those needing a substantial load rating and lightweight portable design.
